

# Charlemagne Action Figure

**Your Task:** Congratulations! You have just been hired by a major toy company. Your first project is to design an action figure based on the historical figure Charlemagne. Be sure to dress your action figure appropriately. Choose at least two special features (things the action figure can do, sound effects, etc.) that your action figure will have. Also include at least three accessories (items that come with the figure). Does your action figure have a catch phrase or motto? Logo? Include those things in your figure's box! On the back, write a paragraph describing Charlemagne and at least three of his accomplishments.
