

NAME _____

MY CIVILIZATION

In class we have learned about many early civilizations. These civilizations, though they have many similarities, are very different. What would it be like if you could start your own civilization? How would the people live? What decisions would you make to create a great civilization? Here is your chance to find out! Apply what we have learned about civilizations to create a great civilization.

Goal: To understand the different aspects that were necessary for a civilization to be successful.

Requirements

You will make a map/ poster (on one sheet) showing your civilization. You will also write a hand written paper explaining the 8 requirements for your civilization.
